1. INTRODUCTION

INTRODUCTION

May we take this opportunity to introduce M/s. Gulf Coast Electro Mechanical Co W.L.L., as one of the leading ELECTRO MECHANICAL Company W.L.L., based in Abu Dhabi, UAE.

As a broadly based Professional and Technical organization which provides a wide spectrum of services to the highly reputed companies, we pride ourselves on providing our clients with cost effective solutions, quick response to the particular project / site requirements from the highly specialized electromechanical staff available round the clock, with 28 years' experience in the field of ELECTRO MECHANICAL WORKS.

It is our prime motto to provide the right quality response and cost effective services in all its activities, backed by a strong administrative and highly Professional / Technical staff and ample resources of all kind of ELECTRO MECHANICAL materials and workshop facility. We have completed several prestigious Projects with ADNOC, ADNOC FOD, TAKREER, GASCO, Borouge, U.A.E. University, U.A.E. Arm Forces etc. and also carried EPC and Shutdown Projects. Moreover, in the commercial sector we have done several high rise towers for prestigious clients such as ADCE, R-holding, Abu Dhabi holding, Al Nasser properties.

Reference to the above-mentioned brief introduction of our establishment; please find herewith the complete profile of the establishment.

Awaiting your response in the near future, would appreciate if any queries that you may have, enabling us to provide professional services.

With best regards,

For GULF COAST ELECTRO MECHANICAL CO. W.L.L.

Omar Khasseb Khamese Al-Hanai
Chairman

Waqas Sheikh
Managing Director

Managing Partner

2. LIST OF SERVICES WE PROVIDE

MEP WORKS

MECHANICAL

- Design, Supply & Installation of Complete HVAC System
- Design, Supply & Installation of Complete Chilled Water System (from heat exchanger to building Network)
- Design, Supply & Installation of Complete Drainage System
- Design, Supply & Installation of Complete Water Supply System
- Design, Supply & Installation of Complete Fire Fighting System
- Building Management System
- Fabrication & General Works

ELECTRICAL

- Low Current
 - Fire Alarm & Vice Evacuation
 - CCTV
 - Access Control
 - Intercom
 - SMATV
 - Structural Cabling System
 - Queue System
 - Intruder Alarm System
 - Car Parking System
 - Home Automation System
 - B.M.S.
- L.V. System
 - LV Switchgear
 - Power Distribution System
 - Generator – ATS System, UPS System
 - LV Cable
 - Cable Tray and Trunking
 - Lighting and Power System
 - Light Control System
 - Earthing & Lightning Protection System
 - 11 KV Transformer

MAINTENANCE WORK

- Maintenance of Fire Alarm and Gas Detection System in Refineries, Petrochemical Plants and Buildings.
- Maintenance of HVAC Systems in Refineries, Petrochemical Plants and Buildings.
- Maintenance of Substations Refineries, Petrochemical Plants and Buildings.
- Maintenance of Switch Gears HT/LT/MCC
- Maintenance of Instrumentation & Comm Cabling (underground)
- Maintenance of Switch Gears HT/LT/MCC
- Maintenance of Control Panels/ Stations
- Maintenance of CATV/CCTV/MATV/LV Instrumentation Systems

(OIL & GAS)

- EPC – Engineering, Procurement and Construction
- Basic and Detailed Engineering (Mechanical, E&I, DCS, MEP
- Procurement
 - Mechanical (Chemical Injection Skids, Pumps, Piping & Fittings, All type of Valves, Steel Structure)
 - Electrical (Motors, Transformers, MCC Panels, MDBS, MSDB, DB, Power Cables all Capacities, CATV./CCTV/MATV/LV Instrumentation System, Cable Trays
 - Instrumentation (Control Panels, Control Cables)
 - DCS Modules, Barriers
 - Ultrasonic Flare Flow Meters
 - Jet A-1 Fuel Tank Flow Meters
 - Tank Gauging System

CONSTRUCTION

MECHANICAL

- Piping Fabrication and Erection, Piping Modifications
- Pipeline Installation, Dismantling of Pipelines
- Equipment Installation, Bundle Removals, Dismantling of Equipment
- Steel Structure Fabrication and Erection, Modification in Existing Structure
- Valves Installation, Replacement of Valves
- Sandblasting and Painting
- Insulation
- HVAC and Plumbing Works
- Dismantling of Adjustment and Plant

ELECTRICAL

- Installation, Testing and Commissioning of Tank Gauging System
- Installation of CATV/CCTV/MATV/LV Instrumentation Systems
- Cathodic Protection System
- Scada and PLC Configurations
- Power Distribution Networks
- Telecommunications
- Grounding and Lighting
- Substations
- Transformer Installation
- MCC Panels Installation
- Electrical Works-Industrial
- Electromechanical (building/Domestic)
- Building Management System
- Cable Laying /Trench Excavation On-shore
- MV Cable Jointing, Termination & Testing
- Street Light and Accessories – Supply and Installation
- Emergency Diesel Generator
- Industrial Wiring
- Cable Trays / Rack Maintenance
- Underground Cables & Accessories Maintenance
- Low Current System
- All type of Security System

INSTRUMENTATION & CONTROL

- Instrumentation Works, Transmitters
- Installation of Ultrasonic Flow Meters on Flare Gas Line
- Enhancement of Emergency Shutdown Systems
- Installation of Emergency Shutdown Valves
- Installation of Double Block & Bleed arrangements
- Installation of Analyzers
- Design of PLC and DCS Systems
- Earthing Systems

TANKS

- Tanks Fabrication and Installation (Sub Contracting)
- Tank Cleaning and Repair Works

Disclaimer:
1) This prequalification approval does not absolve the sub-contractor from getting a 'project specific approval' by the project consultant and by ADCE. Whenever a pre-qualified sub-contractor applies for a specific project, they should go through the sub-contractor submission process where they should prove resource allocation, financing position and proper engineering staff. The issuing of this certificate does not confer any authority upon the Sub Contractor.
2) This certificate is valid for one year from issue date.

Project: ALMAHA BUILDING

Abu Dhabi {Khalifa City – SE6-01 – Plot (C15)}

Subject: MEP Subcontractor

Dear Sir,

Refer to your letter ref. (MSJ/B1N2019-008250//2023/039) dated 18/04/20223 please advised that we have no objection to **approve M/S. GULF COAST ELECTRO MECHANICAL CO. W.L.L.** as a main **MEP subcontractor** to carry out the MEP work in the above said project, this approval is subjected to the following conditions:-

1. Final approval subject to final testing and commissioning for the systems & civil defense final inspection at site.
2. The proposed MEP Subcontractor shall submit an organization chart specified for the project indicate the responsibility held by each staff member and contact no.
3. The engineer has full right to reject any part of work which not complies with project specification and quality requirements.
4. Strictly following latest Version of authorities' regulations (ADDC, ADCD ...etc.)
5. No installation of the material or equipments prior official permission from the consultant engineer in site.
6. No subcontractors for any of the MEP items shall be hired in the project without the prior consultant's approval & the consultant has the right to reject any of the subcontractors nominated under the Main MEP Subcontractor.
7. Complete, detailed & colored work shop drawings for the consultant's review.
8. Physical samples boards for all materials (as per LOM & Specs.) to be submitted along with data sheets, original catalogs & request of approval form to obtain the consultant's approval prior delivering the materials to site.
9. Full compliance with the project's tender documents (Drawings, Specs. & LOM).

10. Complete coordination should be carried out with the other work items (Arch., Struc. & MEP).

This approval doesn't relieve the main contractor from his contractual responsibilities & obligations.

Your coordination will be highly appreciated.

Plumbing and Drainage	✓			with conditional approval for 2 High Rise Buildings.

Majdi Yousef

Registration Review Committee Signature 1

Mohammad Abdelatif Aboumayyeh

Registration Review Committee Signature 2

Disclaimer:
1) This prequalification approval does not absolve the sub-contractor from getting a 'project specific approval' by the project consultant and by ADCE. Whenever a pre-qualified sub-contractor applies for a specific project, they must go through the sub-contractor submission process where they should prove resource allocation, financial position and proper engineering staff. The issuing of this certificate does not confer any authority upon the Sub Contractor.
2) This certificate is valid for one year from issue date.

15. QUALITY POLICY

شركة ساحل الخليج الالكتروميكانيكية ذ.م.م.
GULF COAST ELECTRO MECHANICAL CO. W.L.L.

QUALITY HEALTH, SAFETY AND ENVIRONMENT POLICY

GULF COAST ELECTRO MECHANICAL CO. W.L.L recognizes that Quality, Health & Safety, and environment issues are fundamental to the MECHANICAL, ELECTRICAL AND PLUMBING (M.E.P.) and oil and gas services which includes instrumentation, mechanical, electrical and HVAC business and a proactive approach is required at our end. Our objective is to meet the requirements of all applicable legislation related to M.E.P., in oil and gas services, business and, wherever practicable, implements best practice through our certified Management System (MS) which satisfies the requirements of ISO9001, ISO14001 and OHSAS 18001 and our overall business policy and strategy.

GULF COAST ELECTRO MECHANICAL CO. W.L.L fully recognizes and believes that all harm is preventable and aim for zero fatality due to the M.E.P activities and oil and gas services carried on by us, so:

- Putting people to work carries a specific responsibility and accountability for safety and health which will be visibly demonstrated.
- Encourage all employees and suppliers to take responsibility for working in a manner that promotes quality, whilst minimizing harm to the health and safety of employees, contractors, visitors and members of the public.
- Assess the level of risk from all significant health and safety hazards, as far as reasonably practicable, ensure that they are eliminated or adequately controlled.
- Provide appropriate information, systems of communication, instruction, and training in Quality, Health & Safety, and environment to maintain and continuously improve the competence levels of all employees.
- Ensure full compliance with applicable legal requirements related to our Quality, Health & Safety, and environment processes and corporate business strategies; these will be regarded as minimum standards of achievement.
- The management commitment for prevention of ill health, injury and pollution.

In particular we shall:

1. Continue to develop a positive Quality, Health & Safety, and Environment culture involving our employees in the process.
2. It is the policy of **GULF COAST ELECTRO MECHANICAL CO. W.L.L.** to ensure that all projects are executed in accordance with the mutually agreed Specifications, B.O.Q. and Drawings and as per the signed contract agreement between our company and the CLIENTS'.
3. Quality must be designed in and built-in the processes of M.E.P. and oil and gas services of projects as prevention driven instead of correction driven.
4. M.E.P and oil and gas services processes must be kept under strict control to achieve the desired results.
5. Regularly monitor, audit and review our own system as well as our suppliers' performance in order to assure quality of service. Setting measurable objectives and targets that are relevant to our M.E.P. works and oil and gas service operations for Quality, Environment and Reduce Risks to Health & Safety.

This Policy Statement is communicated to employees and suppliers and will be made available to the public, stakeholders and any other interested party on request.

WAQAS SHEIKH
MANAGING DIRECTOR

16. HEALTH, SAFETY & ENVIRONMENT POLICY

GULF COAST ELECTRO MECHANICAL CO. W.L.L.

HEALTH POLICY

The Management of Gulf Coast Electro Mechanical Co. W.L.L., hereby declare that it is their policy to establish, implement and maintain the HSE Management System within the organization, reflecting the management's commitment to health, safety and environmental protection, while complying with local legislative laws and recognized best practices consistent with the contractual requirements.

Keeping the demanding business environment in view, Gulf Coast, through active participation of all its employed contractors, will focus on minimizing the frequency of future accidents and fundamental part of managing its business and as competitive advantage.

To achieve complete client satisfaction and enhance the confidence and loyalty they place in us, we shall regularly monitor our HSE Management System and Procedures, all of which are implemented to meet the requirements and policies as defined in ISO 9002.

Gulf Coast shall ensure that this policy statement understood implemented and maintained at all levels within the organization.

for GULF COAST ELECTRO MECHANICAL CO. W.L.L.

Waqas Sheikh
Managing Partner

GULF COAST ELECTRO MECHANICAL CO. W.L.L.

HEALTH AND SAFETY POLICY

We, at Gulf Coast hold in high regards, the safety, welfare and health of our employee. We firmly believe that every employee is entitled to work under the safest possible conditions. All possible efforts will be made in the interest of accident prevention, fire-protection and health preservation, in all our site works, workshop and projects. It is good business practice to guard against accidents.

It is our belief that all accidents, which injure people, damage machinery and destroy materials, can be prevented by taking specific safety precautions. All employees in our company are expected to perform their job without compromising the safety standards as prescribed in the safety guidelines issued from time to time. Preventing accidents and the associated cost will permit us to be more competitive in the industry, thus helping to safeguard our business interests.

We do realize that we have responsibility not to enlarge the environment due to our operations and to preserve it to possible extent. GULF COAST will do its best in this direction also, in addition to the preservation of health and safety of its employees.

for GULF COAST ELECTRO MECHANICAL CO. W.L.L.

Waqas Sheikh
Managing Partner

THE MANAGEMENT'S COMMITMENT TO SAFETY

The Management actively supports the safety efforts at all levels. The policy is enforced by taking action to identify and control hazards so that everyone gets a clear message that safety is important.

Clearly defined responsibilities are fixed for all levels of the Management it is integral part of every task and is used in evaluation of the overall performance of a team. As Supervisors know that safety is one of the yard sticks to measure their performance, they become more involved in the safety effort of the company. The lines of communication between the Management and the employees are always open and the workers are encouraged to participate in actively identifying and controlling workplace hazards as the employees at job sites are the best people to know the problem and conditions of the site.

HAZARD IDENTIFICATION INFORMAL / FORMAL INSPECTION

Informal inspections are made on a daily basis by supervisors and workers before the commencement of work by examining their own work area and correcting any problems found before any injuries result.

Our company encourages workers to report problems to Project management attention without fear of reprisals formal inspection are internally conducted by the company's safety personnel. This helps reminding the line supervisors their responsibilities of the safety efforts. The inspection serves to keep everybody on their toes. A formal inspection report is included during this inspection with copies marked to the General Managers and Management.

GULF COAST ELECTRO MECHANICAL CO. W.L.L.

HEALTH AND SAFETY PROGRAM

The Management considers no phase of its operations or administration of greater importance than accident prevention. To accomplish this goal an effective and understandable Safety Policy formulated and enforced.

Safety shall be an integral part of each job and every employee shall be responsible for the safety phase in his work just as any other phase. Every employee has to contribute towards this team effort.

The policy of this company is to strive towards achieving a safe and healthy environment for all its employees at all the work sites to abide by all rules and regulations formulated for the type of work/ industry (as set forth in state and local standards).

Safety is of utmost importance in performance of all operations and must be an integral part of each work task. Safety should not be neglected because of undue haste, no job is so important or service so urgent that it cannot be performed safely in to their daily routine.

The Management of GULF COAST is committed to provide complete support in order to develop and maintain a safe and healthy working environment.

The Company safety program is designed to prevent human suffering, pain and economic loss from work place accident injuries or property damage.

The Company strives as far as possible to provide a workplace safe from recognized hazard by adhering to local regulations and industry safety standards and have a workforce aware of workplace hazards that confront them and their safety responsibility to themselves, their fellow workers and the company.

SAFETY TRAINING COMMUNICATION

Safety Training and Orientation are necessary elements of any effective safety program. Supervisors and workers must understand the company's safety policy and procedures and hazards associated with work.

Training is provided to workers when they arrive on the site in the form of informal lectures on the safety usage of tools other equipment and the necessity of using personal protective equipment. The training is covers the company and projects safety policies and safety regulations.

Tool box talks are also held weekly on the sites to refresh the memories on safe holding of various tools used in the industry.

Site Foreman and Store Keepers are sent for First Aide/ Fire Fighting Courses to keep them updated. These trained persons then communicate to knowledge gained by them to the other employees.

Films on safety are screened in the labour accommodation provided.

Posters imparting the messages of safety are put up on all sites with the safety regulations on them.

Pocket safety hand books are given to each site. These contain safety rules.

A "Block Museum" showing photographs of hazardous areas, accident victims and unsafe situations, damaged tools and protective equipment are exhibited. Practical Demonstration are made in areas for lifting techniques, fire fighting, emergency

Procedures and first aid. Incentive schemes are in force such as "What Wrong Competitions" and prizes for sites with minimum man days on account of accidents.

PLANNING FOR SAFETY

Planning for safety starts during the process of mobilization of the project and continues till all works is completed and the last workman leaves the site. If safety is left to chance and considered an afterthought it will not be effective. Written guidelines are provided for all employees to follow in the Safety Handbook of Company.

A checklist is available during planning stage for consideration in implementation of the Safety Program

PROJECT SAFETY PLANNING CHECKLIST

- I. Will there be a full safety person assigned to the site ensure the following
 - A. Are scope of
 1. Accident Reports Sheet?
 2. Emergency Phone Number Posters Available on Site?
 - B. Are Medical Emergency Services available?
 - C. Is their sufficient communication system in the work place?
 - D. Are work place security measure like fencing, lighting, watchman arrangements complete?
 - E. Is the Electrical grounding in place?
 - F. Are Sanitary fittings and Drinking water available as per regulations?
